

Job Title: Flutter Developer

Job Summary

We are looking for a skilled **Flutter Developer** to design, develop, and maintain cross-platform mobile applications for Android and iOS. The ideal candidate has strong experience with Dart, modern mobile development practices, and a passion for building high-quality, user-friendly applications.

Key Responsibilities

- Develop and maintain mobile applications using **Flutter** and **Dart**
- Build reusable, clean, and efficient code for cross-platform deployment
- Collaborate with UI/UX designers to implement responsive and intuitive interfaces
- Integrate RESTful APIs and third-party services
- Optimize applications for performance, scalability, and reliability
- Debug, test, and maintain existing applications
- Participate in code reviews and follow best development practices
- Work closely with backend, QA, and product teams

Required Skills & Qualifications

- Proven experience as a **Flutter Developer**
- Strong knowledge of **Dart** and Flutter framework
- Experience with state management (e.g. Provider, Riverpod, Bloc, GetX)
- Familiarity with REST APIs, JSON, and HTTP methods
- Understanding of mobile app architecture and design patterns
- Experience with Git or other version control systems
- Ability to write clean, maintainable, and well-documented code

Preferred Qualifications

- Experience publishing apps to **Google Play Store** and **Apple App Store**
- Knowledge of Firebase (Auth, Firestore, Push Notifications)
- Familiarity with CI/CD pipelines for mobile apps

- Understanding of Agile/Scrum development methodologies

Soft Skills

- Strong problem-solving skills
- Good communication and teamwork abilities
- Attention to detail
- Ability to manage time and meet deadlines
