Education

2018 - Present **Computer Engineering**
Al- Balqa' Applied University, Amman
GPA: 3.3

Achievements

The 2019 Amman Collegiate Programming Contest

It was a hard contest I learnt a lot about team working and discussion skills to find a solution for the given problem, we did our best and we got 19th place and I am very eager to participate in the upcoming contests and get a better place.

Experience

HANGMAN_GAME

I Practiced **JavaScript and CSS** and Made use of **DOM** and Learnt How to Manipulate CSS Classes Based on specific Conditions.

MEMORY_GAME

I Practiced **JavaScript and CSS** My First Challenge was to flip the Card with CSS and The Second Challenge was to Make The Cards Unclickable when selecting two cards and flip them back Again.
