EXPERIENCE

Software engineer at ATS - Intern

I completed a three-month internship at ATS, gaining expertise in Java Core, Spring Framework, and Design Patterns, while enhancing problem-solving and software design skills. Collaborating with experienced mentors, I gained practical knowledge and the ability to contribute effectively to software development projects.

PROJECTS

Travel AID (GRADUATION PROJECT)

9/2022 – 12/2022

Web application that connects Shoppers with Travelers on a social network platform. This solution enables Shoppers to seamlessly purchase products from various locations worldwide and have them conveniently shipped by Travelers already in route to their destinations. We designed an efficient and user-friendly system where Shoppers enjoy cost-effective shipping options while Travelers are provided with a unique opportunity to earn money while traveling.
