

Abdullah Al-rosan

Mobile Developer - Flutter

Motivated junior level developer with skills of commitment and communication. Fully committed to learning and gaining the best experience possible to further develop my skills in the field of IT. Fluent in English with a positive attitude to help coordinate with colleagues on group projects or independently. With love for creating UI and learning about UI/UX. Great work experience with the Flutter framework for mobile dedicated to delivering engaging and visually compelling applications with user friendly interactions that drive growth and improve customer experience.
