

# Waleed Abu shawish

## Web Developer

 00962781642821

 shw26176@gmail.com

 Zarqa , Jordan

### Skills

- HTML
- CSS
- PHP
- Responsive web design
- Good Problem-Solving
- Operating Systems: Understanding of operating system concepts, including process management, memory management, file systems, and concurrency.
- Object-Oriented Design: Strong grasp of object-oriented programming principles and design patterns for creating modular, scalable, and maintainable software solutions.
- Programming Languages: Proficient in Java, C++ with a solid understanding of programming concepts, data structures, and algorithms.

### Educations

**B.SC. IN COMPUTER SCIENCE–HASHEMITE  
UNIVERSITY ,ZARQA, JORDAN**

Relevant Coursework:

- Data Structures and Algorithms
- Object-Oriented Programming (OOP)
- Database Systems
- Operating Systems
- Computer Networks
- Software Engineering
- Computer Organization
- Computer Architecture
- Parallel computing

### Languages

Arabic            Native  
English          Good

### Profile

I have supplemented my university education In addition to a four-month training program focused on web development using JSF Primefaces. I possess a strong enthusiasm for acquiring creative skills in programming and website construction.

### Experience

**COMPANY: WALLET ERP**

**POSITION: FRONT-END DEVELOPER**

- Developed and implemented web applications using PrimeFaces, a JavaServer Faces (JSF) component library, to create dynamic and user-friendly user interfaces.
- Leveraged the PrimeFaces component library to implement complex UI features such as data tables, forms, charts, and dialogs.
- Implemented internationalization and localization features in JSF and PrimeFaces applications, allowing for the seamless adaptation of the user interface to different languages and regions..
- Designed and documented API specifications, including endpoints, request/response formats, and authentication mechanisms.

### Projects

Demonstrated proficiency in utilizing PrimeFaces to build a user-friendly and visually appealing interface that enhances user productivity and efficiency in managing ERP processes.
