## EDUCATION

- Bachelor of Software Engineering** Feb - 2023

Philadelphia University  
**Ranked first among graduates**  
**GPA 95.2% (4.0/4.0)**

- Relevant Coursework**  
Algorithms, Data Structure, Object Oriented Programming, Software Development Life Cycle Courses, Software Modeling, Software Architecture, Database Fundamentals & Advanced, Visual Programming, Fundamental Computer Networks, Graphical User Interfaces.

## LANGUAGE

- Arabic
- English
- French

I am a polite and detail-oriented individual who is passionate about technology and thrives under pressure. I have a love for learning and a "can do" mentality that helps me to tackle new challenges with enthusiasm and determination. My ability to work well with a team makes me a dynamic and driven collaborator, and my interest in backend development, mobile app development, web development, and gaming development fuels my curiosity and innovation. With a strong work ethic and a commitment to excellence, I am always seeking opportunities to grow my skills and make a positive impact in the tech industry.

## WORK EXPERIENCE

- Doctor GT** **Oct 2022 - Jan 2023**  
**Internship**, Took full PostgreSQL DBMS course where I have used DDL, DQL, DML extensively with the course, and I have also took multiple courses on dotnet core, more specifically .NET 7, Entity Framework 7, Learned crucial concepts, design patterns such as Repository-Service Pattern, Dependency Injection, Moreover, Wrapper classes, Swagger API, restful APIS, git, GitHub and code first migrations.
- Philadelphia University** **Oct 2022 - Feb 2023**  
**Graduation Project**, Developed an android app, Deployed MVVM Architecture, Observers (Objects), Live Data, Recycler Views, their Adapters and On Swipe Delete Behavior, Integrated the navigation component, Used the Single-Activity Architecture, Used bottom navigation, Incorporated retrofit 2, Was responsible for requesting the endpoints as I see fit to my android frontend, as well as Leading the design (entity relationship diagram), development, maintenance of the database (MySQL) and backend (PHP - Rest API). Furthermore I have incorporated git and GitHub usage into my project development environment.  
And my Project can be found on Github
- Devoyard - Business Park** **May 2023 - Current Job**  
Working Vastly on .NET Core APIS & Web, Entity Framework 7, Database migrations (SqlServer), Repository Pattern, Dependency Injection, Code first Approach, Wrapper Classes, Swagger, Skeletal Classes.

## EXPERTISE

Database Administration		.NET Web APIS	
Version Control (Git, Github)		Entity Framework	
SDLC		Android Development (Kotlin)	

## SKILLS & INTERESTS

### Skills

C++, C#, PHP, MySQL, SqlServer, PostgreSQL, Oracle Apex, Java, Kotlin, XML, Typescript, Git, Github, HTML, CSS, AdobexD, Javascript

### Interests

Competitive & Casual Gaming, Playing Guitar, Cooking, Traveling, Reading, Exploring.
