

## **About the job**

**We are seeking a skilled Flutter Developer to join our team and contribute to building high-quality mobile applications. As a Flutter Developer, you will be responsible for developing cross-platform mobile apps using the Flutter framework, ensuring performance, usability, and code quality.**

### **Key Responsibilities:**

- Collaborate with cross-functional teams to understand project requirements and objectives
- Develop and implement mobile applications using the Flutter framework
- Translate designs and wireframes into high-quality code
- Optimize app performance and ensure compatibility across various devices
- Troubleshoot and debug issues to maintain app stability
- Stay updated on Flutter and mobile development trends
- Communicate effectively with team members and stakeholders

## **Requirements**

- Proven experience as a Flutter Developer or similar role. (0 to 3 years of experience)
- Good understanding of Dart programming language and Flutter framework
- Understanding of mobile app design principles and UI/UX best practices
- Understanding with third-party libraries and APIs
- Good problem-solving and analytical skills
- Degree in Computer Science, Engineering, or related field (preferred)
